CSF

OEM

- 17.5mm ID "Widemouth"
- Stainless Steel with Copper Crush Washer
- Deeper Plunge for More Volume
- 50% Greater Flow Capacity

- 14.5mm
- Mild Steel with Plating

WORLD EXCLUSIVE

- OEM+ recreation of the original Behr cooler
- CNC Machined bottom plate with helix design for strength and pocketed for lightweight
- OEM style tube/fin core with lower pressure drop and higher heat dissipation than the original
- All OEM Behr features replicated on the billet mounting plate and cooler case
- Comes standard with modern cerakote titanium finish (additional heat dissipation) - modern interpretation of the Behr OEM finish
- Optimized ID and flow characteristics of oil pipe for maximum oil flow through the vehicle's oil system.
- Complete drop-in fit, absolutely no modifications to install.
- 10 year warranty
- New OEM coolers from Porsche are extremely scarce/hard to source and cost \$1,300+

MSRP/MAP: \$995.00
